Editor

John Lewis, Royal Holloway, University of London, UK

Journal of Helminthology publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology and biochemistry.

Senior Editor

Peter D. Crittenden, University of Nottingham, UK

The Lichenologist is the premier scientific journal devoted exclusively to the study of lichens worldwide. As the leading forum for the dissemination of new concepts and topical reviews, *The Lichenologist* reaches more scientists concerned with the study of lichens and lichen symbionts than any other single journal. All aspects of lichenology are considered from systematics and molecular biology to eco-physiology and biogeography.

P. E. Gibbs, The Marine Biological Association of the United
Kingdom, Plymouth, UK

Executive Editor

Ann L. Pulsford, The Marine Biological Association of the
United Kingdom, Plymouth, UK

JMBA is an international journal with a worldwide
distribution, publishing original research on all aspects of
marine biology. It includes current international research
developments and features much of the pioneering work
taking place today on major issues concerning marine
organisms and their environment. Subjects include
ecological surveys and population studies, and chemical
and physical oceanographic work.

Editor-In-Chief

Elliot Shubert, The Natural History Museum, UK

Systematics and Biodiversity is an international life science journal devoted to whole-organism biology, especially systematics and taxonomic biodiversity. It emphasizes the importance and multi-disciplinary significance of systematics. It records the diversity of organisms through descriptive taxonomic papers. Coverage also includes relevant theory and methodology, and conservation biology.

Editor

Ian Turner, Winchelsea, UK

Journal of Tropical Ecology publishes papers in the important and now established field of the ecology of tropical regions, either arising from original research (experimental or descriptive) or forming significant reviews. The journal provides a platform for the dissemination of information on all aspects of tropical communities and ecosystems.

CAMBRIDGE
UNIVERSITY PRESS

Edinburgh Journal of Botany is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that link traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to ejb@rbge.org.uk. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. Authors whose mother tongue is not English should if possible have their papers checked by a fluent or proficient English speaker before submission.

There are no page charges. A PDF offprint will be supplied free of charge. Paper offprints may be purchased through the publisher. Colour plates may be included but the cost for these will be charged to the author. Halftone plates are free of charge.

Text should be double spaced throughout with wide margins. All pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used other than in specimen citations where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. It will be assumed that correspondence should be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

Author abbreviations should precisely follow: BRUMMITT, R. K. & POWELL, C. E. (eds) (1992). *Authors of Plant Names*. Kew: Royal Botanic Gardens, Kew; KIRK, P. M. & ANSELL, A. E. (1992). *Authors of Fungal Names* [Index to Fungi Supplement]. Wallingford: CAB International.

Herbarium abbreviations should follow: HOLMGREN, P. K., HOLMGREN, N. H. & BARNETT, L. C. (eds) (1990). *Index Herbariorum. Part I: The Herbaria of the World* [Regnum Veg. vol. 120]. New York: New York Botanical Garden. Newer entries can be found at <http://sciweb.nybg.org/science2/IndexHerbariorum.asp>.

Journal abbreviations should follow: BRIDSON, G. D. R., TOWNSEND, S. T., POLEN, E. A. & SMITH, E. R. (eds) (2004). *BPH-2: periodicals with botanical content: comprising a second edition of Botanico-Periodicum-Huntianum*. Pittsburgh: Hunt Institute for Botanical Documentation.

Book title abbreviations should follow: STAFLEU, F. A. & COWAN, R. S. (eds) (1976–88). *Taxonomic Literature*. 2nd edition. 7 vols [Regnum Veg. vols 94, 98, 105, 110, 112, 115, 116]; STAFLEU, F. A. & MENNEGA, E. A. (eds) (1992–). *Taxonomic Literature*. Supplements [Regnum Veg. vols 125, 130, 132], except that all abbreviated words should be capitalised, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Smith, 2009) or ‘as stated by Smith (2009)’. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the **reference list**, references should be in alphabetical order and should appear in the following style:

ZHU, R.-L. & CHENG, X. F. (2008). The status of *Amblyolejeunea* (Lejeuneaceae) from Ecuador and Guadeloupe. *Syst. Bot.* 33: 617–620.

MABBERLEY, D. J. (2008). *Mabberley's Plant-Book: A Portable Dictionary of Plants, Their Classification and Uses*, 3rd edition. Cambridge: Cambridge University Press.

MANN, D. G. & EVANS, K. M. (2007). Molecular genetics and the neglected art of diatomics. In: BRODIE, J. & LEWIS, J. (eds) *Unravelling the Algae: The Past, Present, and Future of Algal Systematics*, pp. 231–265. Systematics Association Special Volume 75. Boca Raton, FL: CRC Press.

Tables should be numbered in arabic numerals and carry a descriptive title. **Figures**, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Line drawings should be scanned in black and white at 600 dpi and photographs at 300 dpi (but correspond with the editor if this should prove problematic) and sent electronically with the manuscript. Please use LZW compression for tif files, remove excess space and elements from around the image, and crop or scale the image to the journal page size (12.5 × 19.5 cm to include caption). A measured scale mark should be included on each illustration to indicate magnification.

CONTENTS

Brian Laurence Burt:	
A celebration of longevity and productivity. I. HEDGE	1
Plants named in honour of B. L. Burt. A. WEBER & D. J. MIDDLETON	6
Botanical publications of B. L. Burt. A. WEBER, S. SONTAG, M. MENDUM, O. M. HILLIARD & H. J. NOLTIE	8
A revision of the African genera <i>Paropsiopsis</i> and <i>Smeathmannia</i> (<i>Passifloraceae</i> – <i>Paropsiaceae</i>), including a new species of <i>Paropsiopsis</i> from Cameroon. J. M. DE VOS & F. J. BRETELER	27
<i>Pouzolzia rugulosa</i> transferred from <i>Boehmeria</i> , and the distinction between <i>Boehmeria</i> and <i>Pouzolzia</i> (<i>Urticaceae</i>). C. M. WILMOT-DEAR, N. ACHARYA, T. I. KRAVTSOVA & I. FRIIS	51
<i>Bellevalia pelagica</i> (<i>Hyacinthaceae</i>), a new species from the islet of Lampione (Pelagian Archipelago, Sicily). C. BRULLO, S. BRULLO & S. PASTA	65
A new species of <i>Tinospora</i> (<i>Menispermaceae</i>) from South India. P. S. UDAYAN, A. K. PRADEEP & INDIRA BALACHANDRAN	77
Molecular systematics of <i>Rhododendron</i> subgenus <i>Tsutsusi</i> (<i>Rhodoreae</i> , <i>Ericoideae</i> , <i>Ericaceae</i>). K. A. KRON & E. A. POWELL	81
Lectotypification of some Arabian <i>Apocynaceae</i> . P. V. BRUYNS & A. G. MILLER	97
Two new species of <i>Begonia</i> (<i>Begoniaceae</i>) from Central Sulawesi, Indonesia. D. C. THOMAS, W. H. ARDI & M. HUGHES	103
New orchid records from Atlantic Central Africa. V. DROISSART, B. SONKÉ, M. SIMO & T. STÉVART	115
Revision of neotropical <i>Calycobolus</i> and <i>Porana</i> (<i>Convolvulaceae</i>). G. W. STAPLES & D. F. AUSTIN	133
Phylogeny and classification of the Marchantiophyta. B. CRANDALL-STOTLER, R. E. STOTLER & D. G. LONG	155
<i>Book reviews</i>	
<i>Franz Bauer: the painted record of nature</i> , by H. W. Lack	199
<i>Stapeliads of Southern Africa and Madagascar</i> , by Peter V. Bruyns	201

The cover illustration, drawn by Mary Mendum, is of the diminutive alpine plant *Sibbaldia procumbens*, named in honour of one of the Royal Botanic Garden Edinburgh's founders Robert Sibbald. This plant is used, in a stylised form, as the Garden's official logo.
