CONTENTS OF VOLUME 71 (2014)

VOL. 71, No. 1, MARCH 2014

| | |
|--|-----|
| Editorial. M. NEWMAN | 1 |
| Two new species of <i>Streptocarpus</i> (Gesneriaceae) from tropical Africa. I. DARBYSHIRE & A. O. MASSINGUE | 3 |
| Additions to the mycota of the Seychelles. R. WATLING & M. R. D. SEAWARD | 15 |
| Chromosome numbers of the edelweiss, <i>Leontopodium</i> (Asteraceae, Compositae – Gnaphalieae). J. S. STILLE, M. JAEGER, W. B. DICKORÉ, K. EHLERS, S. I. J. HOLZHAUER, E. MAYLAND-QUELLHORST, S. SAFER, S. SCHWAIGER, T. F. STUESSY, H. STUPPNER & V. WISSEMAN | 23 |
| A synopsis of the genus <i>Colutea</i> (Fabaceae) in Iran. P. POOYAN, F. GHAHREMANINEJAD & M. ASSADI | 35 |
| The genus <i>Centaurea</i> (Asteraceae, Cardueae) in Iran: two new species and a lectotypification. M. RANJBAR & K. NEGARESH | 51 |
| A new species of <i>Hedyotis</i> (Rubiaceae) from India. S. KARUPPUSAMY & V. RAVICHANDRAN | 57 |
| <i>Hesperocodon</i> , a new generic name for <i>Wahlenbergia hederacea</i> (Campanulaceae): phylogeny and capsule dehiscence. W. M. M. EDDIE & C. N. CUPIDO | 63 |
| Taxonomic notes on <i>Onosma</i> sect. <i>Aponosma</i> from Iran (Boraginaceae). M. RANJBAR & M. ALMASI | 75 |
| A contribution to the study of the genus <i>Diplycosia</i> (Ericaceae) in Sulawesi, Indonesia. G. ARGENT | 83 |
| Studies in the Flora of Arabia: XXX. A synopsis of the native and naturalised species of <i>Senna</i> (Leguminosae: Caesalpinioideae) in the Arabian Peninsula. F. Z. FILIMBAN, B. MACKINDER, S. G. KNEES & R. T. PENNINGTON | 117 |

Book review

| | |
|---|-----|
| <i>England's Rare Mosses and Liverworts: Their History, Ecology and Conservation</i> , by Ron D. Porley | 133 |
|---|-----|

VOL. 71, No. 2, JULY 2014

| | |
|---|-----|
| Contribution to the flora of the South Aegean Volcanic Arc: Kimolos Island (Kiklades, Greece). K. KOUGIOUMOUTZIS, A. TINIAKOU, O. GEORGIU & T. GEORGIADIS | 135 |
|---|-----|

| | |
|---|-----|
| Studies in the Flora of Arabia: XXXI. New records from the Sultanate of Oman. A. PATZELT, T. HARRISON, S. G. KNEES & L. AL HARTHY | 161 |
| <i>Musa argentii</i> (Musaceae), a new species from Arunachal Pradesh, India. R. GOGOI & S. BORAH | 181 |
| <i>Vaccinium utteridgei</i> (Ericaceae), a new species (sect. <i>Bracteata</i>) from Indonesian New Guinea. G. ARGENT | 189 |
| A revision of <i>Amomum</i> (Zingiberaceae) in Sumatra. A. J. DROOP & M. F. NEWMAN | 193 |
| Two new species of <i>Begonia</i> (Begoniaceae) from Sulawesi, Indonesia. W. H. ARDI, I MADE ARDAKA, HARTUTININGSIH, I NYOMAN LUGRAYASA & D. C. THOMAS | 259 |
| <i>Arisaema madhuanum</i> , a new species of Araceae from India. K. M. MANUDEV & S. NAMPY | 269 |
| Recent data from the flora of the island of Limnos (NE Aegean, Greece): New alien invasive species affecting the agricultural economy of the island. E. BALIOUSIS | 275 |
| VOL. 71, NO. 3, NOVEMBER 2014 | |
| Validation and lectotype of <i>Tilia paucicostata</i> Maxim. subsp. <i>dictyoneura</i> (V.Engl. ex C.K.Schneid.) Pigott (Tiliaceae). C. D. PIGOTT | 287 |
| A new species of <i>Gentiana</i> (Gentianaceae) from the Sikkim Himalaya. D. MAITY | 289 |
| New chromosome counts of <i>Berberis</i> L. (Berberidaceae) suggest that polyploidy does not play a significant role in the diversification of the genus in the Nepal Himalaya. B. ADHIKARI, C. A. PENDRY & M. MÖLLER | 297 |
| A monographic revision of the genus <i>Podocarpus</i> (Podocarpaceae): I. Historical review. R. R. MILL | 309 |
| <i>Hiraea cuneata</i> , <i>H. macrophylla</i> , and four new species confused with them: <i>H. hatschbachii</i> , <i>H. occhionii</i> , <i>H. reitzii</i> , and <i>H. restingae</i> (Malpighiaceae). C. ANDERSON | 361 |
| A new species of <i>Adinandra</i> (Pentaphragaceae) from India. M. K. PATHAK†, M. BHAUMIK & G. KRISHNA | 379 |
| Werdermann's ' <i>Plantae Chilenses</i> ' at the Royal Botanic Garden Edinburgh. D. W. BRAIDWOOD, V. MORALES & M. F. GARDNER | 385 |
| Reviewers for Volume 71 | 407 |
| Index to Volume 71 | 409 |

The Lichenologist

Published on behalf of The British Lichen Society

Senior Editor

Peter D. Crittenden, University of Nottingham, UK

The Lichenologist is the premier scientific journal devoted exclusively to the study of lichens worldwide. As the leading forum for the dissemination of new concepts and topical reviews, *The Lichenologist* reaches more scientists concerned with the study of lichens and lichen symbionts than any other single journal. All aspects of lichenology are considered including systematics and phylogenetics; molecular biology; ultrastructure, anatomy and morphology; secondary chemistry, effects of pollutants and use as bioindicators; biogeography.

Experimental Agriculture

Editor

Dave Harris, *ICRISAT, Kenya*

Experimental Agriculture publishes the results of original research from any source on the agronomy of field, plantation and herbage crops grown for human or animal food; for industrial purposes; and on systems of agricultural production, particularly in the warmer regions of the world. It is especially concerned with experimental work designed to explain agronomic results in biological and environmental terms. The journal publishes accounts of new experimental techniques, new methods of crop production and discusses problems in countries where production is developing rapidly. There are regular book reviews and occasional, often invited, reviews of research.

The Journal of Agricultural Science

Senior Editor (Animal papers)

Julian Wiseman, *University of Nottingham, UK*

Senior Editor (Crops & Soils papers)

Paul Bilsborrow, *Newcastle University, UK*

The Journal of Agricultural Science publishes papers concerned with the advance of agriculture and the use of land resources throughout the world. It publishes original scientific work related to strategic and applied studies in all aspects of agricultural science, including: crop and animal physiology, modelling of crop and animal systems, the scientific underpinning of agronomy and husbandry, engineering solutions, decision support systems, land use, environmental impacts of agriculture and forestry, impacts of climate change, rural biodiversity, experimental design and statistical analysis, the application of new analytical and study methods (including molecular studies). The journal also publishes book reviews and letters.

JOURNALS

Journal of the Marine Biological Association of the United Kingdom

Published for the Marine Biological Association of the United Kingdom

Executive Editor

Dr. P. R. Dando, The Marine Biological Association of the UK, Plymouth, UK

Editor-in-Chief

Michale Thorndyke, Royal Swedish Academy of Sciences, Sweden

JMBA is an international journal, publishing original research on all aspects of marine biology. It includes pioneering work on major issues concerning marine organisms and their environment. Subjects covered include: ecological surveys and population studies of marine communities; physiology and experimental biology; taxonomy, morphology and life history of marine animals and plants; and chemical and physical oceanographic work.

CAMBRIDGE
UNIVERSITY PRESS

Edinburgh Journal of Botany is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that link traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to ejb@rbge.org.uk. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. The **language** of the journal is UK English. Authors whose mother tongue is not English should have their papers checked by a fluent or proficient English speaker before submission.

There are no page charges. A PDF offprint will be supplied free of charge to the corresponding author. Paper offprints may be purchased through the publisher. Colour plates may be included in the online version free of charge; the cost of including colour plates in the printed version will be charged to the author. Halftone plates are free of charge both online and in print.

Text pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used other than in specimen citations where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. Correspondence will be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

Author abbreviations should precisely follow: *The International Plant Names Index*, <http://www.ipni.org/index.html>; *Index Fungorum, Authors of Fungal Names*, http://www.indexfungorum.org/authorsof_fungalnames.htm.

Herbarium abbreviations should follow: *Index Herbariorum. Part I: The Herbaria of the World*, <http://sweetgum.nybg.org/ih/>.

Journal abbreviations should follow: *BPH Online*, http://fmhibd.library.cmu.edu/fmi/iwp/cgi?-db=BPH_Online2014&-loadframes.

Book title abbreviations should follow: *Taxonomic Literature*, <http://www.sil.si.edu/digitalcollections/tl-2/index.cfm> except that all abbreviated words should be capitalised, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Smith, 2014) or 'as stated by Smith (2014)'. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the reference list, references should be in alphabetical order and should appear in the following style:

KNOFF, P., SCHULZ, C., LITTLE, D. P., STÜTZEL, T. & STEVENSON, D. W. (2012). Relationships within Podocarpaceae based on DNA sequence, anatomical, morphological, and biogeographical data. *Cladistics* 28: 271–299.

NOLTIE, H. J. (2013). *The Botanical Collections of Colonel and Mrs Walker: Ceylon, 1830–1838*. Edinburgh: Royal Botanic Garden Edinburgh.

ZHANG, Y. X. & LI, D. Z. (2013). History of and recent advances in plant taxonomy. In: HONG, D. Y. & BLACKMORE, S. (eds) *Plants of China: A Companion to the Flora of China*, pp. 256–278. Beijing: Science Press.

Tables should be numbered in arabic numerals and carry a descriptive title. **Figures**, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Line drawings should be scanned in black and white at 600 dpi and photographs at 300 dpi (but correspond with the editor if this should prove problematic) and sent electronically with the manuscript. Please use LZW compression for tif files, remove excess space and elements from around the image, and crop or scale the image to the journal page size (12.5 × 19.5 cm to include caption). A measured scale mark should be included on each illustration to indicate magnification.

First View: Articles may be made available online before the issue in which they appear is published, though this is not possible in the case of nomenclatural acts, such as new species descriptions and lectotypifications. Cambridge University Press normally publishes the electronic version of the journal simultaneously with the paper edition in order to avoid problems of priority in nomenclature. Authors whose work contains no nomenclatural acts, and who wish their article to be published electronically before it is published on paper, may inform the editor.

Open Access: Cambridge Open Option allows authors the option to make their articles freely available to everyone, immediately on publication. For further information see the online Instructions for Contributors at <http://journals.cambridge.org/ejb>.

The cover illustration, drawn by Mary Mendum, is of the diminutive alpine plant *Sibbaldia procumbens*, named in honour of one of the Royal Botanic Garden Edinburgh's founders Robert Sibbald. This plant is used, in a stylised form, as the Garden's official logo.
