The background of the advertisement is a dark, monochromatic photograph of several jellyfish. The jellyfish are translucent with visible internal structures and are scattered across the frame. A large, faint circular graphic is overlaid on the image, partially enclosing the text.

Life Sciences

Books and Journals from
Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

CAMBRIDGE
UNIVERSITY PRESS

Edinburgh Journal of Botany is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that link traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to ejb@rbge.org.uk. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. The **language** of the journal is UK English. Authors whose mother tongue is not English should have their papers checked by a fluent or proficient English speaker before submission.

There are no page charges. A PDF offprint will be supplied free of charge to the corresponding author. Paper offprints may be purchased through the publisher. Colour plates are published online and in print free of charge.

Text pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used, other than in specimen citations, where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. Correspondence will be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

Author abbreviations should precisely follow: *The International Plant Names Index*, <http://www.ipni.org/index.html>; *Index Fungorum, Authors of Fungal Names*, http://www.indexfungorum.org/authorsof_fungalnames.htm.

Herbarium abbreviations should follow: *Index Herbariorum. Part I: The Herbaria of the World*, <http://sweetgum.nybg.org/ih/>.

Journal abbreviations should follow: *BPH Online*, http://fmhibd.library.cmu.edu/fmi/iwp/cgi?-db=BPH_Online2014&-loadframes.

Book title abbreviations should follow: *Taxonomic Literature*, <http://www.sil.si.edu/digitalcollections/tl-2/index.cfm>, except that all abbreviated words should be capitalised, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Smith, 2014) or 'as stated by Smith (2014)'. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the reference list, references should be in alphabetical order and should appear in the following style:

KNOPE, P., SCHULZ, C., LITTLE, D. P., STÜTZEL, T. & STEVENSON, D. W. (2012). Relationships within Podocarpaceae based on DNA sequence, anatomical, morphological, and biogeographical data. *Cladistics* 28: 271–299.

NOLTIE, H. J. (2013). *The Botanical Collections of Colonel and Mrs Walker: Ceylon, 1830–1838*. Edinburgh: Royal Botanic Garden Edinburgh.

ZHANG, Y. X. & LI, D. Z. (2013). History of and recent advances in plant taxonomy. In: HONG, D. Y. & BLACKMORE, S. (eds) *Plants of China: A Companion to the Flora of China*, pp. 256–278. Beijing: Science Press.

Tables should be numbered in arabic numerals and carry a descriptive title. **Figures**, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Line drawings should be scanned in black and white at 1000 dpi and photographs scanned at 300 dpi (but correspond with the editor if this should prove problematic) and sent electronically with the manuscript. Please use LZW compression for tif files, remove excess space and elements from around the image, and crop or scale the image to the journal page size (12.5 × 19.5 cm to include caption). A measured scale mark should be included on each illustration to indicate magnification. For further information on preparing figures, including preferred file formats, please refer to the Cambridge Journals Artwork Guide, <https://www.cambridge.org/core/services/authors/journals/journals-artwork-guide>.

FirstView articles in *Edinburgh Journal of Botany*: All articles are published online on FirstView ahead of allocation to an issue. All taxonomic articles will contain the date of original online publication on FirstView, which fulfils the stipulations of the International Code of Nomenclature for algae, fungi, and plants.

Open Access: Cambridge Open Option allows authors the option to make their articles freely available to everyone, immediately on publication. For further information see the online Instructions for Contributors at <http://journals.cambridge.org/ejb>.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, nongovernmental, not-for-profit organisation established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

CONTENTS

Editorial	
N. BELL	109
Two new Peruvian species of <i>Begonia</i> (Begoniaceae) and an amended description of <i>Begonia thyrsoides</i>	
P. W. MOONLIGHT & M. C. TEBBITT	111
<i>Araucaria goroensis</i> (Araucariaceae), a new monkey puzzle from New Caledonia, and nomenclatural notes on <i>Araucaria muelleri</i>	
R. R. MILL, M. RUHSAM, P. I. THOMAS, M. F. GARDNER & P. M. HOLLINGSWORTH	123
A new species of <i>Elingera</i> (Zingiberaceae) from Bougainville Island, Papua New Guinea	
A. D. POULSEN & B. B. BAU	141
Four new species of <i>Begonia</i> (Begoniaceae) from Thailand	
T. PHUTTHAI & M. HUGHES	149
<i>Rhododendron stanleyi</i> S. James & Argent: a new <i>Rhododendron</i> species (Ericaceae), subgenus <i>Vireya</i> from Papua New Guinea	
S. A. JAMES & G. ARGENT	163
Two new species of <i>Paphiopedilum</i> (Orchidaceae: Cypripedioideae) section <i>Barbata</i> from Sumatra, Indonesia	
D. METUSALA	169
Taxonomy of <i>Begonia albomaculata</i> and description of two new species endemic to Peru	
P. W. MOONLIGHT, M. HUGHES & M. C. TEBBITT	179
Taxonomy of the <i>Begonia tilifolia</i> group, including descriptions of two new species	
M. C. TEBBITT, M. HUGHES, Á. J. PÉREZ & P. W. MOONLIGHT	199
Recircumscription and new synonyms of <i>Begonia acerifolia</i> (Begoniaceae) and amended descriptions of the poorly known <i>B. hydrophyloides</i> and <i>B. velata</i>	
M. C. TEBBITT	217
Two new taxa of <i>Ornithoboa</i> (Gesneriaceae) from Thailand	
D. J. MIDDLETON, C. PUGLISI & S. SUDDEE	229
<i>Curcuma prasina</i> (Zingiberaceae), a new species from Thailand	
J. LEONG-ŠKORNIČKOVÁ, D. J. MIDDLETON, P. TRIBOUN & S. SUDDEE	245
Book review	
<i>Rosellinia</i> – a <i>World Monograph</i> , by L. E. Petrini	251

The cover illustration, drawn by Mary Mendum, is of the diminutive alpine plant *Sibbaldia procumbens*, named in honour of one of the Royal Botanic Garden Edinburgh's founders, Robert Sibbald. This plant is used, in a stylised form, as the Garden's official logo.

Date of print copy publication of *Edinburgh Journal of Botany* 74(1) (pages 1–108): 27 February 2017
