New Titles

Evolution, Variation, and Classification of Palms

A. Henderson and F. Borchsenius

ISBN 0-89327-426-7

MEM 83

\$60.00

Páramos:

A Checklist of Plant Diversity, Geographical Distribution and Botanical Literature

J. Luteyn

ISBN 0-89327-427-5

MEM 84

\$64.00

Várzea:

Diversity, Development and Conservation of Amazonia's Whitewater Floodplains

C. Padoch, J. Márcio Ayres,

M. Pinedo-Vasquez and A. Henderson

ISBN 0-89327-419-4

AEB 13

\$39.50

postage & handling

\$6.00 + 5% of subtotal for US orders \$7.00 + 6% of subtotal for non-US orders
\$6.00 for orders of \$25.00 or less

Payment in US currency only. Checks drawn on a US institution. MasterCard, Visa and American Express are acceptable forms of payment. All sales are final. PLEASE ALLOW SIX TO EIGHT WEEKS FOR DELIVERY. All prices are subject to change without notice.

Edinburgh Journal of Botany is an international journal of plant systematics and related aspects of biodiversity and conservation science. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that links traditional and modern techniques are especially welcomed. Both full length papers and short communications (i.e. usually no more than two printed pages) are acceptable. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere.

Manuscripts should be sent in triplicate to: The Editorial Office (Edinburgh Journal of Botany), Royal Botanic Garden Edinburgh, 20A Inverleith Row, Edinburgh EH3 5LR, UK.

There are **no page charges**. **25 offprints** will be supplied free of charge. Further offprints may be purchased through the publisher (e.g. 25 copies of 1–4 pages = £20.50; 50 copies of 9–16 pages = £57.50). No offprints will be available for Short Communications. **Colour plates** may be included but these will be charged to the author: £500 and £550 for half and full page respectively. Halftone plates are free of charge.

Manuscripts should be typewritten using double spacing throughout (including references, tables and legends) with wide margins. All pages should be numbered serially, with the title and abstract on the first. Species names should be italicised (or underlined) and should be followed by the authority when first used in the main text. SI (metric) units must be used other than in specimen citations where appropriate. The editors reserve the right to decide that a paper may be treated as a Short Communication.

The title page should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and up to five keywords (other than those appearing in the title). Authors of scientific names should not be included in the title unless there is good reason. It will be assumed that correspondence and requests for offprints should be addressed to the first author unless otherwise indicated. The Abstract should be concise, informative and intelligible without reference to the main text.

Within the main text, **author abbreviations** should follow: BRUMMITT, R. K. & POWELL, C. E. (eds) (1992). *Authors of Plant Names*. Kew: Royal Botanic Gardens, Kew; KIRK, P. M. & ANSELL, A. E. (1992). *Authors of Fungal Names* [Index to Fungi Supplement]. Wallingford: CAB International.

Abbreviations for herbaria should follow: HOLMGREN, P. K., HOLMGREN, N. H. & BARNETT, L. C. (eds) (1990). *Index Herbariorum. Part I: The Herbaria of the World* [Regnum Veg. vol. 120]. New York: New York Botanical Garden.

Abbreviations for journal names should follow: LAWRENCE, G. H. M., BUCHEIM, A. F. G., DANIELS, G. S. & DOLEZAL, H. (eds) (1968). *Botanico-Periodicum-Huntianum*. Pittsburgh: Hunt Botanical Library; BRIDSON, G. D. R. (ed.) (1991). *Botanico-Periodicum-Huntianum Supplementum*. Pittsburgh: Hunt Institute for Botanical Documentation.

Abbreviations for book titles should follow: STAFLEU, F. A. & COWAN, R. S. (eds) (1976–88). *Taxonomic Literature*, 2nd edition. 7 vols [Regnum Veg. vols 94, 98, 105, 110, 112, 115, 116]; STAFLEU, F. A. & MENEGA, E. A. (eds) (1992). *Taxonomic Literature*, Supplements [Regnum Veg. vols 125, 130, 132], except that all abbreviated words should be capitalized, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Long, 1994) or 'as stated by Long (1994)'. Multiple references should be arranged chronologically. For three or more authors use *et al.*

In the **reference list**, references should be typed in alphabetical order and should appear in the following style:

JONG, K. (1993). Variation in chromosome number in the Manuleae and its cytotaxonomic implications. *Edinb. J. Bot.* 50: 365–379.

MABBERLEY, D. J. (1987). *The Plant-Book. A Portable Dictionary of the Higher Plants*. Cambridge: Cambridge University Press.

ENDLER, J. A. (1982). Pleistocene forest refuges: Fact or fancy? In: PRANCE, G. T. (ed.) *Biological Diversification in the Tropics*, pp. 641–657. New York: Plenum Press.

Tables should be numbered in arabic numerals and each should carry a descriptive title above. Each table should be typed on a separate page. The places for insertion of tables in the text should be clearly marked in the margin.

Figures, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Each figure should be marked on the reverse with the author's name and the figure number. Line drawings and diagrams should be submitted on stout white paper or tracing paper and should allow for one third reduction. A measured scale mark should be included on each illustration to indicate magnification. The places for insertion of figures in the text should be clearly marked in the margin. The page area for figures is 12.5 × 19.5cm to include caption.

CONTENTS

The taxonomic status of <i>Tilia dasystyla</i> in Crimea, Ukraine. C. D. PIGOTT & B. FRANCIS	161
<i>Dussia atropurpurea</i> (<i>Leguminosae-Papilionoideae</i>), a new species from Central America and notes on sarcotesta coloration in <i>Dussia</i> systematics. N. ZAMORA, R. T. PENNINGTON & C. S. STIRTON	175
<i>Sedum ince</i> (<i>Crassulaceae</i>), a new species from Southern Anatolia. H. "T HART & K. ALPINAR	181
<i>Passiflora formosa</i> sp. nov.. a hitherto misunderstood taxon in <i>Passiflora</i> sub-genus <i>Tacsonia</i> (<i>Passifloraceae</i>) from Colombia. T. ULMER	195
<i>Ekimia</i> , a new genus of <i>Umhelliferae</i> , and two new taxa of <i>Prangos</i> Lindl. (<i>Umbelliferae</i>) from southern Turkey. H. DUMAN & M. F. WATSON	199
The systematic position of <i>Rhytidocaulon</i> (<i>Apocynaceae-Asclepiadoideae</i>). P. V. BRUYNS	211
A reappraisal of the generic status of <i>Gastrocotyle</i> , <i>Hormuzakia</i> and <i>Phyllocara</i> (<i>Boraginaceae</i>) in the light of micromorphological and karyological evidence. M. BIGAZZI, F. SELVI & G. FIORINI	229
Karyotype and seed protein analyses of <i>Lycium</i> (<i>Solanaceae</i>) in Iran. M. SHEIDAI, Z. NARENGI & M. KHATAMSAZ	253
Three new species of <i>Aeschynanalluts</i> (<i>Gesneriaceae</i>). M. MENDUM	265
Notes relating to the Flora of Bhutan: XXXVII. New species and records of <i>Orchidaceae</i> from Bhutan and India (Sikkim). N. PEARCE & P. CRIBB	273
Notes relating to the Flora of Bhutan: XXXVIII. <i>Gramineae</i> I. tribe Stipeae. H. J. NOLTIE	285
A phytogeographic analysis of the woody elements of New World savannas. J. C. LENTHALL, S. BRIDGEWATER & P. A. FURLEY	293

Short communications

Three new combinations and a lectotypification for East Himalayan plants. D. G. LONG	307
Triplicate publication in <i>Berberidaceae</i> . J. E. LAFERRIERE	308
Book reviews	309

The cover illustration, drawn by Mary Bates, is of the diminutive alpine plant *Sibbaldia procumbens*, named in honour of one of the Royal Botanic Garden Edinburgh's founders Robert Sibbald. This plant is used, in a stylised form, as the Garden's official logo.

ACCREDITED WITH THE INTERNATIONAL ASSOCIATION FOR PLANT TAXONOMY FOR THE PURPOSE OF REGISTRATION OF ALL NEW PLANT NAMES
