

CATALOGUE OF THE NAMES  
PUBLISHED BY HECTOR LÉVEILLÉ

Errata & Emendata: I

L. A. LAUENER

It is hoped to publish a complete list of Errata and Emendata at the conclusion of the Dicotyledons in this Catalogue. Since the first part was published in 1961 some errors have become apparent and there have also been many taxonomic or nomenclatural changes. In addition, many of the Hawaiian species described by Léveillé, particularly in the families Myrtaceae, Araliaceae and Rubiaceae, were accidentally omitted from the relevant parts.

At this stage it is intended only to correct some important nomenclatural errors, as follows.

No. 1089 (Notes R.B.G. Edinb. 34: 352, 1976).

It has been pointed out to me that the combination *Dendranthema littorale* (Maekawa) Tzvel. subsp. *coreanum* (Lévl. & Van.) Lauener (sphalm. *coreana*) is, of course, illegitimate and against the Code, as '*coreana*' is the earlier epithet. *D. littorale* subsp. *coreanum* must become ***Dendranthema coreanum*** (Lévl. & Van.) Lauener and *D. littorale* must become ***D. coreanum*** subsp. *littorale* (Maekawa) Lauener. The synonymy is, therefore:

***Dendranthema coreanum*** (Lévl. & Van.) Lauener subsp. *coreanum*, comb. nov.

*Matricaria coreana* Lévl. & Van. (1910).

*Chrysanthemum coreanum* (Lévl. & Van.) Nakai ex Mori (1922).

*Dendranthema littorale* (Maekawa) Tzvel. subsp. *coreanum* (Lévl. & Van.) Lauener (1976).

***Dendranthema coreanum*** (Lévl. & Van.) Lauener subsp. *littorale* (Maekawa) Lauener, comb. nov.

*Chrysanthemum littorale* Maekawa (1921).

*Dendranthema littorale* (Maekawa) Tzvel. (1961).

No. 1342 (Notes R.B.G. Edinb. 35: 266, 1977).

The new combination *Lysimachia esquirolii* (Lévl.) Lauener was wrong and should not have been made. The correct name at the moment is *L. lancifolia* Craib. *L. esquirolii* Bonati remains as a good name.

No. 1373 (Notes R.B.G. Edinb. 35: 275, 1977).

*Planchonella sandwicensis* (A. Gray) Pierre var. *spathulata* (Hillebr.) H. J. Lam is incorrect when *Sideroxylon spathulatum* Hillebr. var. *molokaiense* (Lévl.) Rock is regarded as synonymous with it. The earlier name at varietal rank is '*molokaiense*' and the necessary change was made in Notes R.B.G. Edinb. 38: 496 (1980).

As a result of this change it is necessary to alter *Planchonella sandwicensis* var. *spathulata* f. *densiflora* (Hillebr.) H. J. Lam to ***Planchonella sandwicensis*** (A. Gray) Pierre var. ***molokaiense*** (Lévl.) Lauener f. *densiflora* (Hillebr.) Lauener, comb. nov.

St. John (*Phytologia* 45: 291, 1965) lists *Myrsine molokaiensis* Lévl. as *Planchonella spathulata* (Hbd.) Pierre var. *molokaiensis* (Lévl.) St. John.
